

Redesigning Onboarding for a B2B SaaS

Question:

How would you redesign the onboarding flow to halve time-to-value?

Category: product-design

Difficulty: Advanced

Tags: Onboarding, B2B SaaS, UX Research, A/B Testing, Activation

Framework / Approach:

1. JTBD
2. Session Analysis
3. A/B Testing
4. Progressive Disclosure

Snapshot / Solution:

Mapped the existing 14-step onboarding to a Jobs-to-be-Done framework. Identified 4 friction points through session-recording analysis. Redesigned to a 3-step progressive-disclosure flow and validated with A/B test.
