

# OrganHub Healthcare Coordination App

## **Question:**

Design a platform that connects organ donors, NGOs, and hospitals end-to-end.

**Category:** product-design

**Difficulty:** Intermediate

**Tags:** Healthcare, User Research, Figma, Information Architecture, 0 to 1

## **Framework / Approach:**

1. Stakeholder Interviews
2. Persona Mapping
3. Information Architecture
4. Figma Prototyping

## **Snapshot / Solution:**

Conducted 12 stakeholder interviews across donor families, hospital coordinators, and NGO ops. Synthesised into 3 user personas. Mapped 15 screens covering donation registration, hospital matching, and status tracking.
