

NPS Fell from 52 to 31 in One Quarter

Question:

What caused a 21-point NPS drop among enterprise customers?

Category: root-cause-analysis

Difficulty: Intermediate

Tags: NPS, Enterprise, Retention, Customer Feedback, Cohort Analysis

Framework / Approach:

1. NPS Segmentation
2. Cohort Analysis
3. Customer Interviews
4. Feature Audit

Snapshot / Solution:

Segmented NPS by cohort, plan tier, and CSM assignment. Enterprise accounts on a specific plan had an 80% detractor rate. Traced to a UI change that removed a bulk-action feature enterprise users relied on daily.
