PROFESSIONAL SUMMARY

Engineer-turned-PM with 2+ years shipping AI products at Convin, started as an intern, earned a PPO, now running features tied to \$3M+ ARR. Technically deep enough to sit in GPU cluster reviews and write data pipeline specs alongside engineering. Comfortable owning ambiguous 0-to-1 problems across LLM infrastructure, enterprise integrations, and omnichannel deployment.

EDUCATION

INDIAN INSTITUTE OF TECHNOLOGY, DHANBAD

DHANBAD, JHARKHAND

Bachelor of Technology

April, 2025

EXPERIENCE

CONVIN

BENGALURU, INDIA

Associate Product Manager

June, 2025 - Present

- **65% reduction in LLM infrastructure costs:** led migration from paid third-party APIs to self hosted (H200 GPU clusters) fine-tuned open-source models. Defined fine-tuning requirements, performance acceptance, and monitored throughput to achieve production readiness (1600 API calls/sec)
- **14 enterprise clients onboarded, 140,000 API calls/day served:** shipped Hinglish language detection and Devanagari TTS output, later extended to Gujarati, Marathi, and South Indian languages. Expanded AI Voice Agent's addressable market to India's bilingual contact centres, clients include Flipkart.

Product Management Intern (FULL TIME, CONVERTED TO PPO)

Sept, 2023 - May, 2025

- **28 enterprise clients, \$1.3M ACV,** designed a no-code Rule Engine for automated QA, letting client teams build custom audit SoP without raising an engineering ticket.
- **\$1.7M in license renewals achieved,** shipped product requirements and CRM integration architecture for an LLM-powered insight delivery system serving C-suite stakeholders, with automated alerting built in.

ASPIRE

Singapore

Junior Product Manager

Jan, 2023 - May, 2023

- **800+ client migration, sub-1.25% error rate,** owned the full Nium-SG to DBS-HK payment rail migration across engineering, compliance, and ops with zero downtime on high-value accounts.
- **CSAT +15% across 1,000+ SME clients,** drove QuickBooks Online and Xero API integrations that fully automated expense categorisation and bank feed syncing, eliminating manual data entry for accounting workflows.
- **10% operational cost reduction in 3 months,** audited customer ops end-to-end and presented a data-backed business case to leadership that got approved and executed.

ACHIEVEMENTS

- Secured 1st place out of 300+ teams in a national level hackathon organized by IIT Dhanbad in partnership with Xiaomi - [Certificate](#)
- Selected as **Campus Ambassador for Swiggy** at IIT Dhanbad out of 2000+ applicants - [Offer Letter](#)
- Earned the **"Top Product Management Voice"** on LinkedIn for being one of the best contributors to LinkedIn articles
- Invited attendee at Razorpay FTX 2026 Fintech Conference, an invite only, fintech and AI conference for VCs and industry leaders.

PROJECTS

Automated Market Research | OpenClaw Architecture | [Github](#)

- Built a daily ingestion and scoring pipeline for publicly listed companies, evaluates Debt-to-Equity, free cash flow, and custom valuation signals to flag high-risk assets before they enter any decision flow.
- Automated report delivery across Telegram, Slack, and Discord via webhooks and scheduler. Runs daily, no manual input required.

Black Diamond Consulting | Co-Founder | IIT (ISM)

- Built a Venture Capital consulting firm at IIT (ISM) from scratch, 30+ projects delivered for clients including Accenture Japan, Marico, and Schbang across tech scoping and pre-seed fundraising. Validated by IIT (ISM)'s incubation centre

SKILLS

- **Technical:** SQL, Python, LLM Fine-tuning, Prompt Engineering, REST API Design, CRM Integration, Data Modeling, Webhooks
- **Tools:** JIRA, Confluence, Figma Make, Mixpanel, Amplitude, Postman, Notion, N8N, Superset Apache
